

Guduru Abhinaya

Hyderabad, Telangana | 9347507540 | guduruabhinaya24@gmail.com | github.com/Abhinayaguduru | linkedin.com/in/abhinayaguduru

PROFESSIONAL SUMMARY

B.Tech (AI & ML) student with hands-on experience in deep learning, machine learning. Built end-to-end CNN and ML models for real-world medical applications. Experienced with Azure AI services, Python, and modern web technologies. Proficient communicator (Cambridge C1 English) with strong collaborative and problem-solving skills.

EDUCATION

B.Tech in CSE (AI & ML) – Malla Reddy Engineering College for Women	2022 – 2026
Intermediate MPC – Excellencia Junior College	2020 – 2022 79%
SSC – Model Mission High School	2020 GPA: 8.5/10

TECHNICAL SKILLS

Languages: Python, Java, HTML

Database: SQL (basic querying) **Tools & Platforms:** GitHub, VS Code

INTERNSHIPS

AI Azure Virtual Intern – Microsoft Initiative May 2025 – June 2025

- Integrated Azure Vision & Language APIs to build a cloud-hosted document analysis prototype.
- Deployed scalable AI solution on Azure; managed API authentication and endpoint configuration.
- Completed full project lifecycle — from requirement scoping to deployment — in 6 weeks.

Web Development Intern – Apex Planet Software Pvt. Ltd. May 2025 – June 2025

- Built 3+ responsive web pages using HTML, CSS, and JavaScript with mobile-first layouts.
- Contributed front-end components to a live client project; received sign-off from senior developers.
- Applied Git version control, managing branches and pull requests within a team of 4.

PROJECTS

Iris Tumor Detection using CNN | Python, TensorFlow/Keras, OpenCV

- Trained CNN model to classify iris tumor images into stages, type & risk level — 90%+ validation accuracy.
- Applied image preprocessing (resizing, normalization, augmentation) on 1,000+ labeled images.

Explainable AI-Based Anemia Prediction Model | Python, Scikit-learn, SHAP/LIME

- Built classification model predicting anemia severity from blood panel data — 87% test accuracy.
- Used SHAP to generate per-prediction feature importance scores; documented with visual explanations.

CERTIFICATIONS

Infosys Springboard – Python for Beginners (2024) • Coursera – Machine Learning Specialization, DeepLearning.AI (2024)
• Cambridge English C1 Advanced

SOFT SKILLS

Communication (C1 English) • Team Collaboration • Problem Solving • Leadership
